

GT MANUFACTURING ACADEMY 2021

Career Accelerator

The Ferrari GT Engineering Academy, based in Maranello/Italy, **is looking for the best engineering graduates & PhDs** to join us in within the **highly innovative, stimulating, and challenging work environment** of the Ferrari GT engineering product development team.

This is your unique opportunity to enter the exciting and demanding world of Ferrari, by joining our newly designed and dedicated program.

Start with a dedicated 6-month internship, and deliver to earn a long term role in the Ferrari engineering team.

Who are we looking for?

We are seeking **excellent engineering graduates** (Master and/or PhD) **who have graduated within the last 12 months.**

Above all, we are looking **for problem-solvers** with the highest **agility** who are able to **work practically** as well as **creatively, team-players** who are **hardworking** and with the right **humility**, are **hungry** to learn, and **motivated** to succeed.

Your academic background will come from these key disciplines:
Aerospace Engineering, Mechanical Engineering, Electrical & Electronic Engineering, Materials Science & Controls Engineering.

How can you apply?

Please apply directly on the specific opportunity on the Ferrari careers pages corporate.ferrari.com/en/career
Closing date for applications: Sunday 18th October 2020
Internship projects start in early 2021 in Maranello, Italy
